

30th
EIPM CPO Round Table

22nd June 2023
Montreux, Switzerland

**"Handling
Contradictory Forces"**

Agenda

Handling Contradictory Forces

Dear Friends,

As you know, procurement professionals are constantly faced with competing pressures and priorities. Balancing cost savings with supplier relationships, managing risk while driving innovation, and meeting stakeholder expectations while adhering to regulations are just a few examples of the many contradictory forces at play.

The Round Table will be focused on real cases and best practices exchanges. The agenda for the day of 22nd June will give you an idea of the density of the content.

In addition to the high-quality content and networking opportunities, this event will take place in a truly unique setting. Nested in the heart of the Swiss Alps, our exclusive venue offers breathtaking views, exceptional cuisine, and world-class amenities that will ensure you have a memorable and productive experience.

We sincerely hope to welcome you to one of the major events of the EIPM!

Hervé Legenvre
EIPM Research Director
